Chapter 3

Class Documentation

3.1 System Struct Reference

A structure to represent a system and desired PID tuning method.

```
#include <system.h>
```

Public Attributes

- double **Ku**
- double **Tu**
- Tuning **tuning_method**

3.1.1 Detailed Description

A structure to represent a system and desired PID tuning method.

3.1.2 Member Data Documentation

3.1.2.1 Tu

```
double System::Tu
```

< The gain margin for loop stability

3.1.2.2 tuning_method

```
Tuning System::tuning_method
```

< The period of the oscillations frequency at the stability limit

The documentation for this struct was generated from the following file:

- source/system.h
